This is Being Human E-Cycle.
“Being Human E-Cycles, with their pedal assist and rechargeable motor support choices, make them the easiest and most practical option to cycle across both urban and not-so-urban areas.”

Salman Khan
The electric technology.
Power to the people.

To the cyclists and absolute newcomers, the E-Cycle represents an exciting adventure that expands horizons, both individually and as a group. For those who love their bikes, it represents a new form of sporting enjoyment and even for those pursuing a modern and open-minded lifestyle both professionally and personally, the E-cycle represents the perfect means of transportation.
The Being Human E-Cycle is a hybrid between electric technology and your leg power. The key elements for this human-electric hybrid are a battery and a motor. The BH27 E-cycle has a pedal assist and a rechargeable battery. Cycle when you want to and ride it like a bike too.

The BH27 comes with a LCD monitor and displays speed range in km, battery level, voltage, pedal assist modes, trip meter and odometer. The BH12 comes with a LED monitor that displays only the battery level. The display monitors are mounted on the handlebars and the desired information is arranged logically in a user-friendly and uncluttered manner.

Every move counts.
So count every move.
A joy to own and ride.

Our premium-quality, sturdy and lightweight steel frames were specifically developed for E-Cycles, for extra stability and rigidity.
Agile and easy to handle.

With regard to the wheels of our E-Cycle, our entire focus is on stability and safety. With 26” x 2.10” high-quality nylon tyres, we only use products that meet our high quality requirements.
Motor.
Pure Adrenalin.

The extremely compact and quiet 250W brushless DC motor placed in rear hub with a voltage of 36V powers the Being Human E-Cycle. The maximum speed of upto 25 km/hr (with an automatic cut-off enabled), you are ensured of an unique riding experience.
Safety starts at stop.

Both wheels of the Being Human E-Cycle are equipped with mechanical disc brakes of superior quality.
Everything is fun with E-Cycle. Even bumpy roads.

The Being Human E-Cycle comes with adjustable front suspension to ensure a smooth ride even when roads aren’t.
More light to play with.

The E-Cycle is equipped with super bright LED headlight to make the riding experience as safe as possible.
For the enviroment.

Even though the Being Human E-Cycle runs on the rechargeable battery, it is much more environment friendly than a fuel-run vehicle.
A revolutionary new way to ride.

Would you like to keep fit on your ride? Then the E-Cycle is for you.

It is a sporting option.
The BH27 E-Cycle is equipped with best in class Magnesium alloy wheels. The handle is posture friendly and the sophisticated design seamlessly combines style and a clean sporty layout.

More style for the city.
Forward thinking.
Mobility of the future.

We have it in our own hands to shape our future – with green, responsible ideas and sensible concepts that respect the planet.
An E-Cycle.
And a heart.

Being Human – The Salman Khan Foundation is a registered charitable trust established in 2007 and working in the areas of education and healthcare for the underprivileged.

Royalties from every product sold help support the initiatives of the Being Human Foundation.

What makes us unique?

Every cycle sold will help shape a life through

Education

or help save a life through

Healthcare

Not an entire line or a collection, but every single cycle sold helps a life in one way or the other. Every single model, every single edition, season after season, will continue to do so.
